OFFICE OF PETITIONS

Dear Sir:

Applicants hereby request reconsideration of the Decision dated July 24, 2000, with respect to the acceptance of the present Application as fully compliant with all requirements for assignment of a Serial No. and Filing Date.

The Decision pointed out that, while Applicants sought to establish the unavailability or unwillingness of inventor Dennis Just to execute the Declaration and Power of Attorney and to

PATENT
715-1-060 CIP

thereby join in the completion of the filing of the subject Application, the documents submitted were those with respect to a prior parent Application and not with respect to the instant Application. The Decision also states that of the requirements for the processing of a grantable Petition under 37 CFR 1.47(a) the proof that the non-signing inventor cannot be reached or refuses to sign the Oath or Declaration after having been presented with the Application papers, must be submitted. The Decision goes on to state that the last known address of inventor Just must also be included so that evidence of bonafide attempts to contact inventor Just can be considered to have been made.

In response, the undersigned submits herewith a copy of correspondence that was forwarded to inventor Just as of December 12, 2000 as certified mail, and including a card confirming receipt of the documents in question. Accordingly, a copy of the letter is enclosed herewith, together with a signed and canceled receipt that accompanied the package to its destination.

Applicants advise with regard to the last known address of inventor Just, that it is 1925 Akron Peninsula Road, Akron, Ohio 44313. Efforts to ascertain a more current address of inventor Just have proved fruitless as there are no personal listings for inventor Just either in Akron or anywhere else in Ohio.

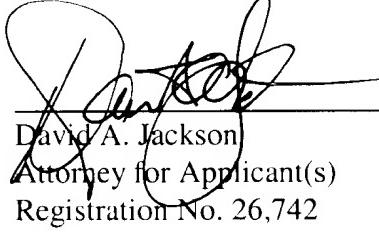

On this basis therefore, Applicants believe that they have complied with the requirements of 37 CRF 1.47(a) in providing and forwarding to the last known address of inventor Just a copy of the present Application as filed, together with the appropriate documents for execution so as to complete the filing of the present Application.

PATENT
715-1-060 CIP

For all of the above reasons, Applicants believe that the information required for the Petition under 37 CFR 1.47(a) to be granted, is provided herewith. Accordingly, reconsideration of the Petition and grant thereof to enable the orderly processing of the present Application to continue, is courteously solicited.

Respectfully submitted,

KLAUBER & JACKSON
